

# NetApp AFF C-Series

Enterprise-grade capacity flash

# Agenda

- Business and IT challenges
  - Challenges to meet the requirements of digital transformation
  - Modernize IT with cloud-connected flash
- NetApp® AFF C-Series systems
  - AFF C-Series overview
  - Customer benefits
- Flash promotion programs
- Leadership and advantages

# Two shifts taking place in the market

## **Budgets are tightening**

Shift to best-in-class, low-cost solutions

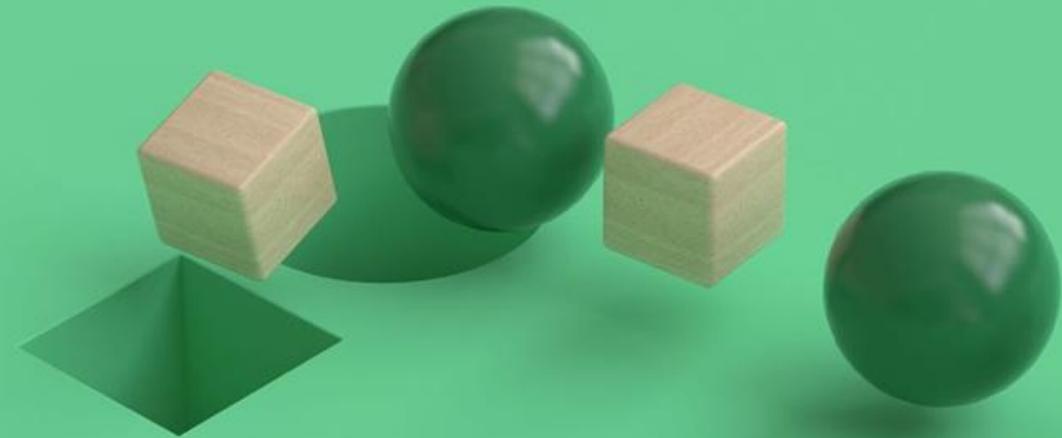

## **Sustainability has become a strategic imperative**

Environmental, social, and governance (ESG); shareholder demand;  
rising energy costs

# NetApp AFF C-Series systems

A new level of high-capacity flash performance at a lower cost

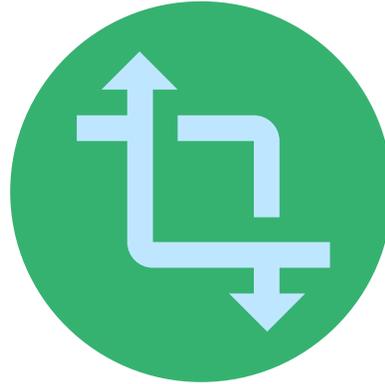

# Leading the way to a cloud-connected, all-flash data center

Budget-friendly high-capacity all-flash storage for workloads where maximum performance isn't a requirement

Increase efficiency and sustainability

Scale capacity and performance painlessly

Keep data available, protected, and secure

# NetApp AFF C-Series

Introducing our newest family of all-flash, high-capacity flash storage systems

## Sustainable

- Outstanding price/performance
- Leading raw-to-effective data efficiency
- Tier to hybrid flash or cloud
- Better energy efficiency

## Scalable

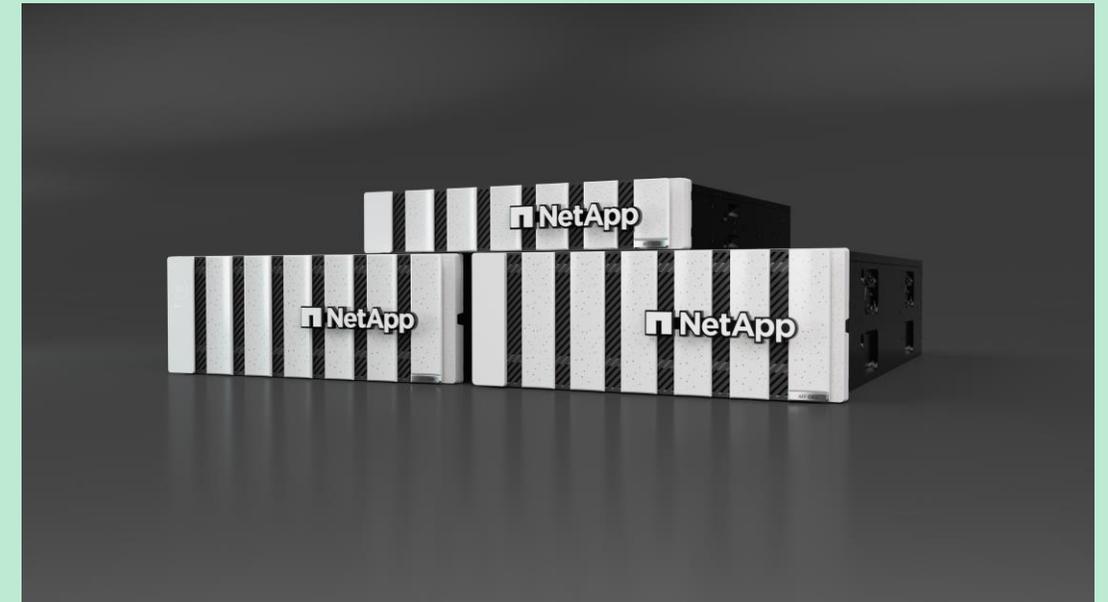

- Entry capacity aligned with needs
- Clustered scalability
- Connect to performance flash or hybrid flash

## Secure

- Ransomware protection
- Business continuity, disaster recovery
- Application-integrated backup and recovery

## Cloud-connected

- Disaster recovery to cloud
- Back up to cloud
- Tier to cloud

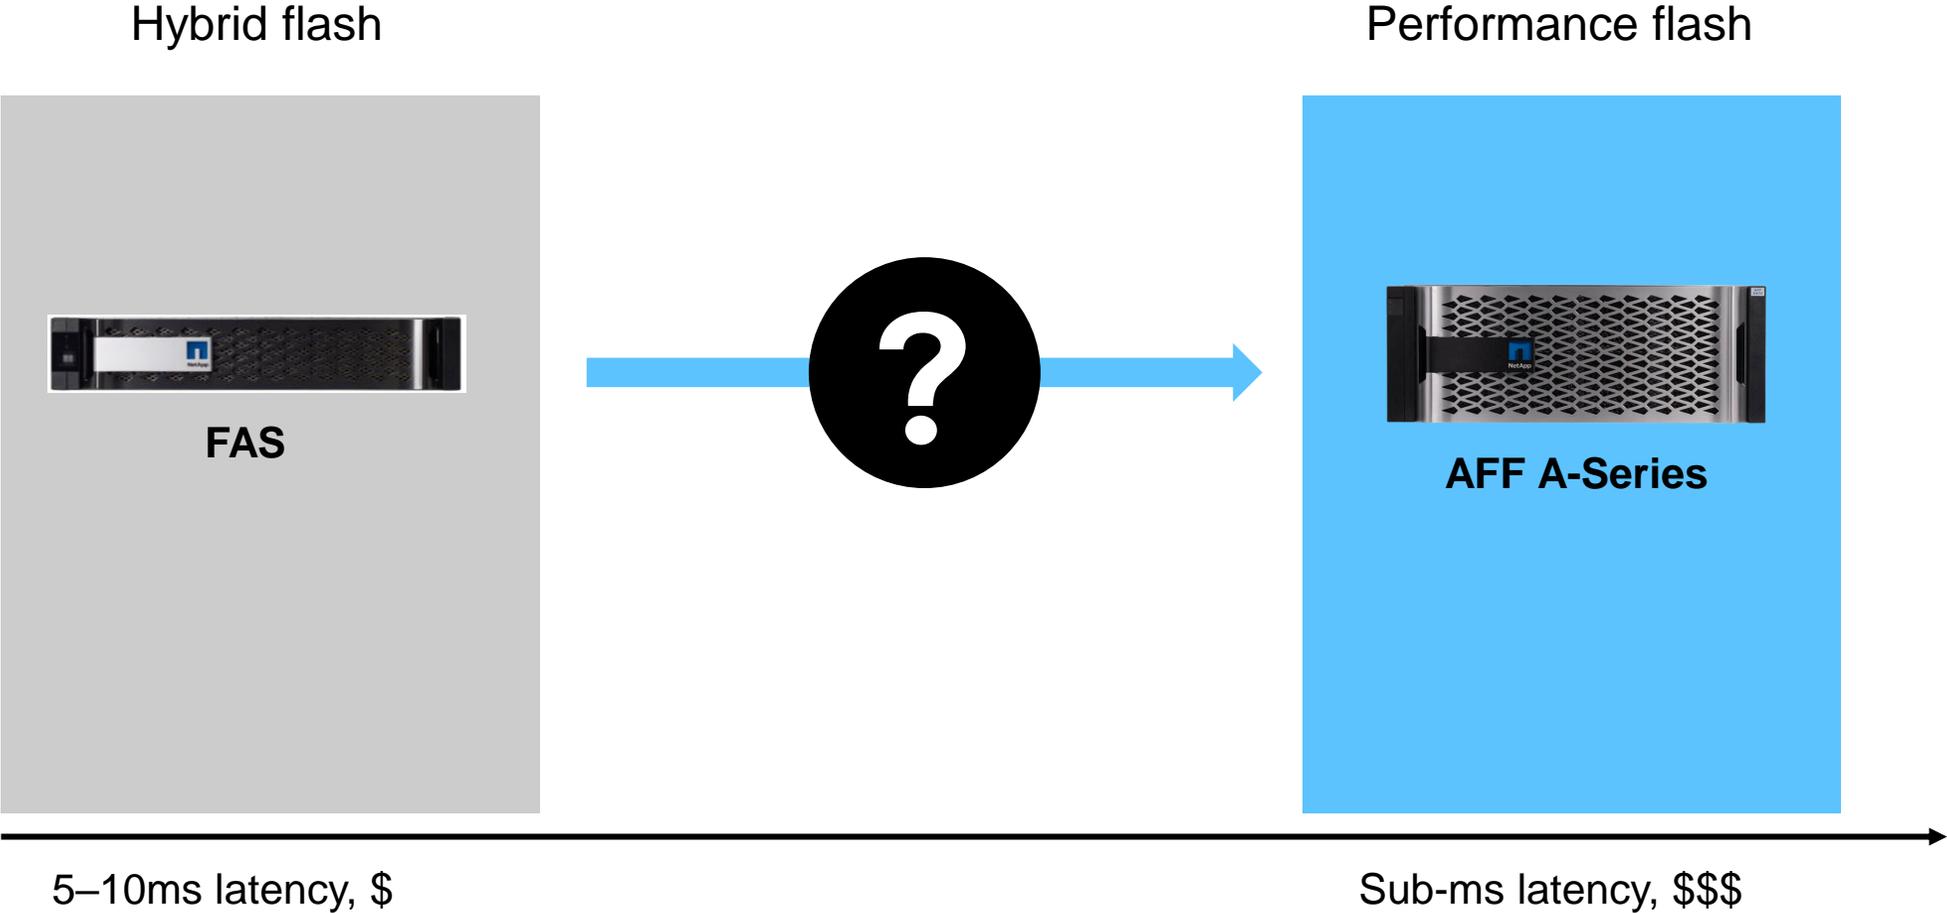

## NetApp® AFF C-Series HIGH-CAPACITY ALL-FLASH STORAGE SYSTEMS

The product images shown may represent the range of products or be for illustration purposes only. They may not be an exact representation of the product.

# Customers want to transform from hybrid to all flash

But price is often a limiting factor

# Opportunity: Accelerate all-flash transformation with capacity flash

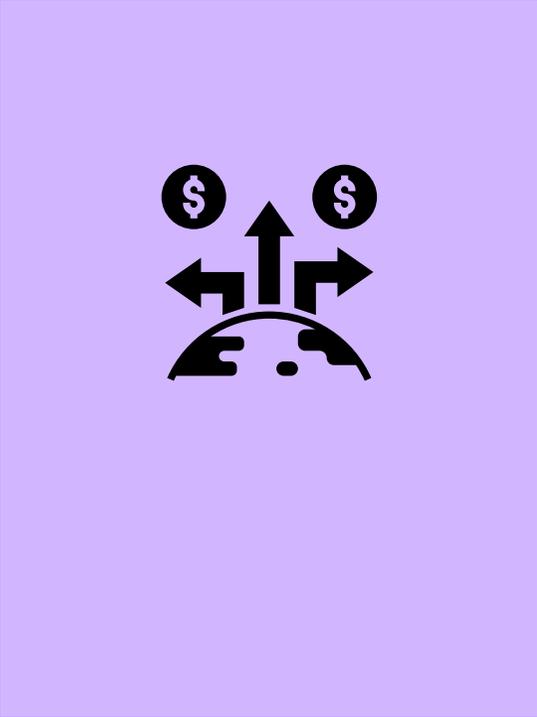

Without compromising on budget and sustainability goals

Hybrid flash

5–10ms latency, \$'s

Capacity flash

2–4ms latency, \$\$'s

Performance flash

Sub-ms latency, \$\$\$'s

# Meet NetApp AFF C-Series

A new family of capacity flash storage

**AFF C250**

**AFF C400**

**AFF C800**

## HA system

- 122TB–734TB raw
- Up to 2.9PB effective
- 2U base

## Cluster

- 122TBs – 8.8PBs Raw
- Up to 34.8PBs Effective

- 122TB–1.46PB raw
- Up to 5.9PB effective
- 4U base + 2U drive shelf

- 122TB–17.6PB raw
- Up to 70.8PB effective

- 182TB–2.2PB raw
- Up to 8.8PB effective
- 4U base

- 182TB–26.4PB raw
- Up to 106PB effective

Effective capacity calculation includes a 5:1 storage efficiency possibility.

# AFF C-Series is born feature-rich

ONTAP One bundle provides industry-leading, comprehensive data services

Protocols	Efficiency	Anti-ransomware	Data protection	Tenancy and scale
<ul style="list-style-type: none"> <li>NAS / File               <ul style="list-style-type: none"> <li>NFS</li> <li>SMB</li> </ul> </li> <li>SAN / Block               <ul style="list-style-type: none"> <li>FC</li> <li>iSCSI</li> <li>NVMe/FC</li> <li>NVMe/TCP</li> </ul> </li> <li>Object (S3)</li> </ul>	<ul style="list-style-type: none"> <li>Leading raw-to-usable</li> <li>Deduplication, compression, compaction</li> <li>Thin provisioning</li> <li>Data tiering to hybrid, object, or cloud</li> </ul>	<ul style="list-style-type: none"> <li>Near-real-time detection</li> <li>Tamper-proof Snapshot recovery</li> <li>Multi-admin verification</li> <li>Blocking of known malicious files</li> </ul>	<ul style="list-style-type: none"> <li>App-integrated backup</li> <li>Business continuity</li> <li>Sync/async disaster recovery</li> <li>NetApp<sup>®</sup> Snapshot<sup>™</sup> copies</li> <li>Clones</li> </ul>	<ul style="list-style-type: none"> <li>Multitenancy</li> <li>QoS</li> <li>Clusterwide scaling</li> </ul>

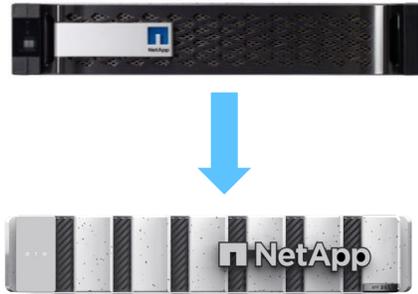

**NetApp ONTAP<sup>®</sup>**  
**Data management software**  
 Delivering automation, efficiency, data protection, and security capabilities across the NetApp portfolio for file, block, and object

# Target use cases

## Hybrid-to-capacity flash refresh

(suited for 10K HDD transition and End-of-support system refresh)

## Tier 1 workloads

(where 2–4ms latency is more than enough)

- Media/rendering
- AI/ML and analytics
- Data lakes
- File storage
- Home directories
- User data
- Non-mission-critical databases
- VMware

## Tier 2 workloads

(where capacity is the primary driver)

- DevTest sandbox copies for databases or VMs (NAS or SAN)
- Fast recovery for backups
- Target system for backup consolidation (NetApp® Snapshot™ copies and NetApp SnapMirror®)
- Target system for data tiering

Compared to hybrid flash arrays

- Best TCO
- Better speed
- Better density
- Better efficiency

- Best TCO

- Best TCO
- Better speed
- Better density
- Better efficiency

# AFF C-Series is efficient

Superior overall cost-effectiveness compared to similar systems

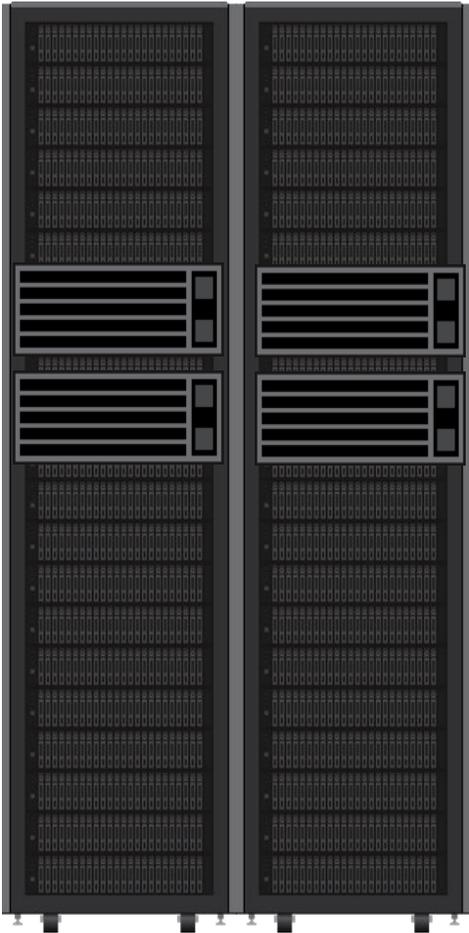

- Reduce up to 95% of rack space with high-density capacity flash

- 80% raw-to-usable
- 4:1 data reduction for SAN workloads
  - 1.5:1 for NAS
  - 3:1 for VMware, Hyper-V, and KVM workloads on NAS
- Policy-based tiering of cold data to hybrid flash, object, or cloud storage

- Save power and cooling costs up to 85% over hybrid flash

# Reduce TCO with AFF C-Series

Hybrid Flash Array

↑ 1.5PB effective in 2U

AFF C-Series System

↓ 85% less power/cooling

↓ 95% smaller footprint

# AFF C-Series is secure

NetApp ONTAP software includes over 30 advanced data security features

## Protect

## Detect

## Recover

- Multifactor authentication and role-based access control
- Application-consistent data protection
- Multi-admin verification before execution of sensitive commands
- Data encryption in transit and at rest

- Autonomous ransomware protection with preemptive detection against attacks
- Enhanced file system auditing

- Data availability maintained with zero data loss and zero downtime
- NetApp® SnapLock® technology for write once, read many (WORM) data
- Tamper-proof NetApp Snapshots™ copies

# AFF C-Series is scalable

Experience the ultimate flexibility of scale and management that is a NetApp specialty

- Eliminate storage silos and scale capacity nondisruptively.
- Combine performance flash, capacity flash, and hybrid storage—across SAN, NAS, and object storage—in a single cluster.

## Cluster up to 24 nodes

# AFF C-Series is cloud-connected

- Disaster recovery to cloud
- Back up to cloud
- Tier to cloud
- Caching to cloud
- Manage hybrid multicloud storage

**NetApp® cloud storage services**

**AFF C-Series**

# NetApp Advance

# NetApp Advance

An innovative portfolio of programs and guarantees to give you the confidence that the storage they purchase today will evolve with them into the future

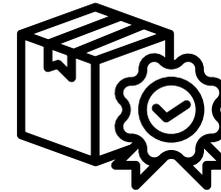

## Storage Lifecycle Program

- Eliminate painful and costly refresh.

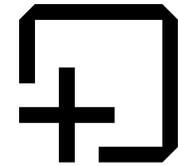

## Cloud Advantage

- Scale out to the cloud to meet changing business needs.

## Storage Efficiency Guarantee

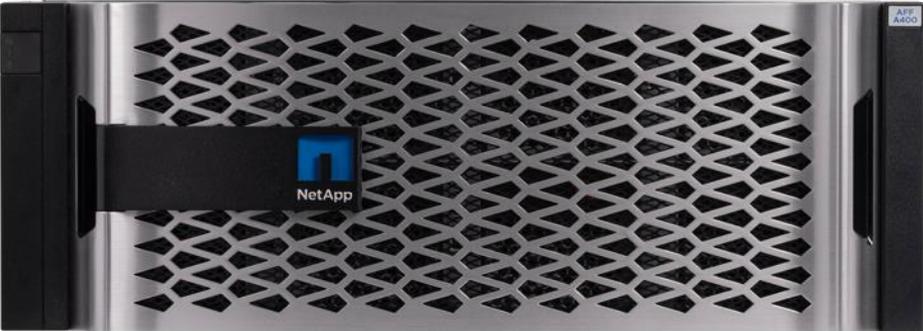

- 4:1 efficiency for SAN workloads, guaranteed—or we'll make it right.

## Continued expansion

- In the future, NetApp® Advance will grow with additional programs and guarantees to generate greater customer value.

# Pair the industry's leading storage with the new Storage Lifecycle Program

NetApp® AFF and FAS systems

- Free controller every 3 years
- Cloud Advantage
- Capacity refresh
- Support-managed software updates
- Premier-level support services

**Make the smart choice today,  
and future-proof their investment for tomorrow**

# Cloud Advantage

Harness the cloud to meet changing business needs over time

- Enable future growth to the cloud to meet business demands.
- Flexibility to purchase the on-premises storage you need today and shift your investment toward the cloud in the future.
- Built into the Storage Lifecycle Program, Cloud Advantage enables you to swap your on-premises controller refresh for offerings that may include cloud services or NetApp Keystone® storage as a service.

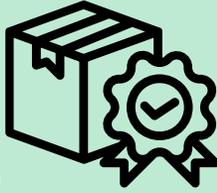

Cloud Advantage

## Storage Efficiency Guarantee

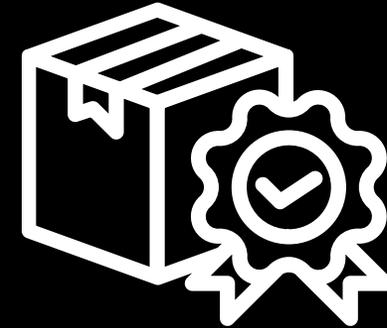

The simplest and most effective guarantee in the industry. Period.

- A risk-free approach to more storage, more value, and more efficiency
- Our guarantee: If we don't meet your workload efficiency goals, we'll make it right at no cost to you
- A way to get high efficiency plus high performance—with no trade-offs
- Applies to NetApp® AFF systems, including the new C-Series

Our guarantee is simple...

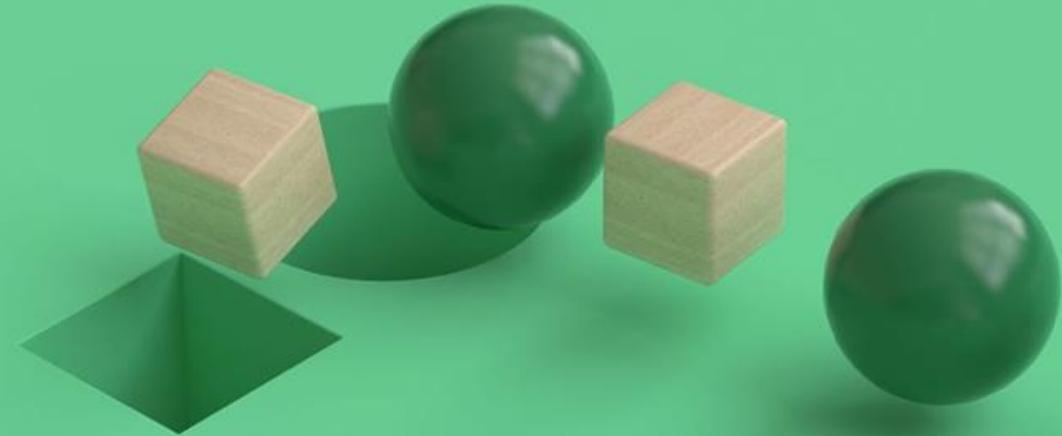

Storage  
Efficiency Guarantee

On all NetApp ONTAP®  
all-flash systems

- **4:1 for SAN workloads**
- **1.5:1 for NAS workloads**
- **3:1 for VMware, Hyper-V, and KVM workloads on NAS**

# Leadership and honors

# NetApp ONTAP on-premises storage portfolio

An elegant portfolio for all performance and price points

**NetApp® BlueXP™**  
Unified control plane

**NetApp ONTAP®**  
Data management software

Delivering automation, efficiency, data protection, and security capabilities across the NetApp portfolio for file, block, and object

## AFF A-Series

Highest performance with submillisecond latencies for the workloads your business depends on

TLC FLASH MEMORY

## AFF C-Series

High-capacity with flash performance characteristics; aimed for workloads with performance needs while meeting budget needs

QLC FLASH MEMORY

## FAS

Balanced performance and budget for smaller-capacity workloads

7.2K NL-SAS DISK DRIVES  
10K SAS DISK DRIVES

Integrated solution with server, storage, and networking components; delivered by NetApp and Cisco channel partners

**FlexPod® XCS**

**NetApp Advance**
